**Parral Reports Ninth Consecutive Quarter of Positive Cash Flow on Production of 551K AgEq Oz**

**Halifax, NS – GoGold Resources Inc. (TSX: GGD) (OTCQX: GLGDF) (“GoGold”, “the Company”)** is pleased to report production for the quarter ending March 31, 2021 of 551,207 silver equivalent ounces (“AgEq”), consisting of 302,933 silver ounces, 3,208 gold ounces, and 86 tonnes of copper. Parral has generated positive free cash flow for nine consecutive quarters, with estimated free cash flows exceeding US\$5.5 million this quarter.

“Parral has become our engine of free cash flow, generating in excess of US\$5.5 million this quarter. Parral has funded our exploration program at Los Ricos for three consecutive quarters,” said Brad Langille, President and CEO. “Parral’s free cash flow, when reinvested in Los Ricos, is creating exceptional value growth for our shareholders.”

This news release may contain "forward-looking information" as defined in applicable Canadian securities legislation. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding production and cash flows of the Parral tailings mine, the ability of GoGold to self fund its ongoing exploration and administrative costs, future operating margins, future production and processing, and future plans and objectives of GoGold, constitute forward looking information that involve various risks and uncertainties. Forward-looking information is based on a number of factors and assumptions which have been used to develop such information but which may prove to be incorrect, including, but not limited to, assumptions in connection with the continuance of GoGold and its subsidiaries as a going concern, general economic and market conditions, mineral prices, the accuracy of mineral resource estimates, and the performance of the Parral project. There can be no assurance that such information will prove to be accurate and actual results and future events could differ materially from those anticipated in such forward-looking information.

Important factors that could cause actual results to differ materially from GoGold's expectations include exploration and development risks associated with GoGold's projects, the failure to establish estimated mineral resources or mineral reserves, volatility of commodity prices, variations of recovery rates, and global economic conditions. For additional information with respect to risk factors applicable to GoGold, reference should be made to GoGold's continuous disclosure materials filed from time to time with securities regulators, including, but not limited to, GoGold's Annual Information Form. The forward-looking information contained in this release is made as of the date of this release.
