GoGold Presents Its First Sustainability Update Outlining ESG Practices

Halifax, NS – GoGold Resources Inc. (TSX: GGD) (OTCQX: GLGDF) (“GoGold”, “the Company”) is pleased to present its first ever Sustainability Update that sets out the Company’s priorities with respect to its environmental, social and governance (“ESG”) practices.

“We’re pleased to release our first Sustainability Update which outlines our vision, values, and achievements related to ESG practices. Silver is a metal that is a key component of the emerging green economy. As we remove old mine tailings from within the city of Parral, we produce silver at a low carbon footprint of 0.004 tCO₂e per ounce of silver produced,” said Brad Langille, President and CEO. “At GoGold, community is everything. Our philosophy has always been to do business in a way that not only helps our communities and employees thrive, but that also protects natural ecosystems while increasing shareholder value. Acting on our values, our strong commitment to upholding ethical practices, and strict regulatory compliance has solidified a positive reputation for GoGold in the communities in which we operate and beyond.”

The full update is available for download at www.gogoldresources.com/sustainability/

Highlights of the Update:

- 1.9 million tonnes of tailings waste removed at our Parral operation
- 30,000m³ of water saved at our Parral operation
- 12,000 hours of safety and professional development training
- \$1.1 million USD spent on community investment including sponsorships, donations, and community benefit agreements

About GoGold Resources

GoGold Resources (TSX: GGD) is a Canadian-based silver and gold producer focused on operating, developing, exploring and acquiring high quality projects in Mexico. The Company operates the Parral Tailings mine in the state of Chihuahua and has the Los Ricos South and Los Ricos North exploration projects in the state of Jalisco. Headquartered in Halifax, NS, GoGold is building a portfolio of low cost, high margin projects. For more information visit gogoldresources.com.

CAUTIONARY STATEMENT:

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and may not be offered or sold within the United States or to, or for the benefit of, U.S. persons (as defined in Regulation S under the U.S. Securities Act) except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities laws or pursuant to exemptions therefrom. This release does not constitute an offer to sell or a solicitation of an offer to buy of any of GoGold's securities in the United States.

This news release may contain "forward-looking information" as defined in applicable Canadian securities legislation. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding GoGold's future plans in the areas of sustainable development, health, safety, environment, community development, the Los Ricos South and North projects, and future plans and objectives of GoGold, including the intention to undertake further exploration at Los Ricos North, and the prospect of further discoveries there, constitute forward looking information that involve various risks and uncertainties. Forward-looking information is based on a number of factors and assumptions which have been used to develop such information but which may prove to be incorrect, including, but not limited to, assumptions in connection with the continuance of GoGold and its subsidiaries as a going concern, general economic and market conditions, mineral prices, the accuracy of mineral resource estimates, and the performance of the Parral project. There can be no assurance that such information will prove to be accurate and actual results and future events could differ materially from those anticipated in such forward-looking information.

Important factors that could cause actual results to differ materially from GoGold's expectations include exploration and development risks associated with GoGold's projects, the failure to establish estimated mineral resources or mineral reserves, volatility of commodity prices, variations of recovery rates, and global economic conditions. For additional information with respect to risk factors applicable to GoGold, reference should be made to GoGold's continuous disclosure materials filed from time to time with securities regulators, including, but not limited to, GoGold's Annual Information Form. The forward-looking information contained in this release is made as of the date of this release.
