**GoGold Reports 10% Increase in Production at Parral**

**Halifax, NS – GoGold Resources Inc. (TSX: GGD) (OTCQX: GLGDF) (“GoGold”, “the Company”)** is pleased to report production for the quarter ending December 31, 2022 of 441,217 silver equivalent ounces, consisting of 159,838 silver ounces, 2,399 gold ounces, and 222 tonnes of copper. This represents an increase of 10% in silver equivalent production from the quarter ended September 30, 2022.

“In 2023, we are entering our ninth year of production at Parral. Our operations team have proven their ability in delivering a consistent, safe, environmentally friendly operation. This expertise will be invaluable as we advance development at Los Ricos towards the ultimate goal of production,” said Brad Langille, President and CEO. “2023 will truly be a transformative year for GoGold.”

This news release may contain "forward-looking information" as defined in applicable Canadian securities legislation. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding production and cash flows of the Parral tailings mine, the ability of GoGold to self fund its ongoing exploration and administrative costs, future operating margins, future production and processing, and future plans and objectives of GoGold, constitute forward looking information that involve various risks and uncertainties. Forward-looking information is based on a number of factors and assumptions which have been used to develop such information but which may prove to be incorrect, including, but not limited to, assumptions in connection with the continuance of GoGold and its subsidiaries as a going concern, general economic and market conditions, mineral prices, the accuracy of mineral resource estimates, and the performance of the Parral project. There can be no assurance that such information will prove to be accurate and actual results and future events could differ materially from those anticipated in such forward-looking information.

Important factors that could cause actual results to differ materially from GoGold's expectations include exploration and development risks associated with GoGold's projects, the failure to establish estimated mineral resources or mineral reserves, volatility of commodity prices, variations of recovery rates, and global economic conditions. For additional information with respect to risk factors applicable to GoGold, reference should be made to GoGold's continuous disclosure materials filed from time to time with securities regulators, including, but not limited to, GoGold's Annual Information Form. The forward-looking information contained in this release is made as of the date of this release.
