GoGold Reports Q2 Production at Parral to 555,479 Silver Equivalent Ounces

Halifax, NS – GoGold Resources Inc. (TSX: GGD) (OTCQX: GLGDF) (“GoGold”, “the Company”) is pleased to report production for the quarter ending March 31, 2025 of 555,479 silver equivalent ounces, consisting of 210,289 silver ounces, 3,279 gold ounces, 117 tonnes of copper, and 157 tonnes of zinc.

“Parral has delivered strong stable quarterly production, with expected similar cash flows from the operation as the previous quarter. This cash flow generated from Parral allows us to fund additional exploration at Los Ricos South as we await our anticipated mining permit,” said Brad Langille, President and CEO. “The recently completed equity financing, together with the robust Parral cash flow, not only strengthens our balance sheet for the upcoming mine build at Los Ricos South, but also allows us flexibility to advance Los Ricos North and explore around our mine reserves as we approach the execution phase at Los Ricos South. We believe this plan will ultimately generate the most value creation for the company.”
