GoGold Advances the Development of their Los Ricos South Project

Halifax, NS – GoGold Resources Inc. (TSX: GGD) (OTCQX: GLGDF) (“GoGold”, “the Company”) is pleased to report that it has advanced to the execution phase of the Los Ricos South Project located in the Jalisco State, Mexico by launching detailed design activities and initiating the placement of orders for long lead items.

Significant progress has been made to date including:

1. Underground Mexican mining contractor selected (Cominvi, S.A. de C.V.).
2. Detailed underground mine design and planning advanced.
3. Detailed plant design by M3 Mexicana, S de RL de CV, has advanced to 55% complete.
4. Detailed SART (sulfidization, acidification, recycling, and thickening) plant design has advanced to 70% complete.
5. Identified suppliers and preparing to order a new SAG grinding mill in the coming weeks.
6. Design of the DSTF (dry stack tailings facilities) has advanced.
7. Contract issued for the detailed design of the Paste Plant.
8. All site geo-tech work to support the design programs has been completed.
9. Supply contract reached with the local utility company, Comision Federal de Electricidad (“CFE”), over project grid power supply from the Yesca Hydro dam. Engineering of the line is in progress with the local electrical company Sistema, and most of the routing will be covered by existing CFE easements/right of ways.
10. Water supply assessments, both surface and ground supplies, are well advanced.

“The advancement of the Los Ricos underground project marks an important milestone in the growth of the company,” Brad Langille, President and CEO stated. “The progress to date will ensure a quick launching of site construction once the permit is issued, we are shovel ready. We have assembled a strong Mexican team to construct, commission and ramp up production. With approximately \$250 million USD in the bank and the cash flow that our Parral operation is generating, we look forward to getting underway in Los Ricos to the benefit of the local community and all the stakeholders. We will continue to make substantial investments in the Mexican economy, where 100% of our operations are located.”

Mr. Robert Harris, P.Eng. is the qualified person as defined by National Instrument 43-101 and is responsible for the technical information of this release related to Parral.

About GoGold Resources

CAUTIONARY STATEMENT:

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and may not be offered or sold within the United States or to, or for the benefit of, U.S. persons (as defined in Regulation S under the U.S. Securities Act) except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities laws or pursuant to exemptions therefrom. This release does not constitute an offer to sell or a solicitation of an offer to buy of any of GoGold's securities in the United States.

This news release may contain "forward-looking information" as defined in applicable Canadian securities legislation. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding the Parral tailings mine, the Los Ricos projects, future operating margins, future production and processing, and future plans and objectives of GoGold, constitute forward looking information that involve various risks and uncertainties. Forward-looking information is based on a number of factors and assumptions which have been used to develop such information but which may prove to be incorrect, including, but not limited to, assumptions in connection with the continuance of GoGold and its subsidiaries as a going concern, general economic and market conditions, mineral prices, the accuracy of mineral resource estimates, and the performance of the Parral tailings mine. There can be no assurance that such information will prove to be accurate and actual results and future events could differ materially from those anticipated in such forward-looking information.

Important factors that could cause actual results to differ materially from GoGold's expectations include exploration and development risks associated with the GoGold's projects, the failure to establish estimated mineral resources or mineral reserves, volatility of commodity prices, variations of recovery rates, and global economic conditions. For additional information with respect to risk factors applicable to GoGold, reference should be made to GoGold's continuous disclosure materials filed from time to time with securities regulators, including, but not limited to, GoGold's Annual Information Form. The forward-looking information contained in this release is made as of the date of this release.
