	December 31, 2012		December 31, 2011	
	Shares	Weighted Average Price	Shares	Weighted Average Price

Options exercisable, end of period	<u>170,000</u>	\$ 1.25	<u>211,666</u>	\$ 1.06

The 170,000 finder's options outstanding at December 31, 2012 expire on December 23, 2014.

The charge for the finder's options was determined based on the fair value of the options at the date of grant using the Black-Scholes option pricing model with the following assumptions:

	December 31 2011
Dividend yield	0%
Expected volatility	97%
Risk free interest rate	0.99%
Expected life	3.0 years
Weighted average grant date fair value	\$0.759

The expected volatility was determined based on the historical share price volatility from the date of the grant over a period of time equal to the expected life of the option, unless the expected life assumption is greater than the trading history for the shares, in which case the entire trading history for the shares through the date of the grant was used as a basis for estimating expected volatility.

(e) Incentive stock options

The Corporation has a rolling 10% incentive stock option plan (the "Plan") under which options to purchase common shares of the Corporation may be granted to directors, officers, employees and consultants of the Corporation. Under the Plan, the terms and conditions of each grant of options are determined by the Board of Directors. Incentive stock options are generally exercisable for a maximum period of three to five years from the grant date and have vesting periods of 18 months to three years as determined by the Corporation's Board of Directors. Options are granted at a price no lower than the market price of the common shares at the time of the grant.

The number of common shares subject to options granted under the Plan is limited to 10% of the issued and outstanding common shares of the Corporation and no one person may receive in excess of 5% of the outstanding common shares of the Corporation at the time of grant (on a non-diluted basis).

	<u>3,585,000</u>	<u>0.81</u>	<u>2,298,750</u>	<u>0.54</u>

The compensation charge for the outstanding incentive stock options granted during the period was determined based on the fair value of the options at the date of grant using the Black-Scholes option pricing model with the following assumptions:

	October 9 <u>2012</u>
Dividend yield	0%
Expected volatility	86%
Risk free interest rate	1.37%
Expected life	5.0 years

The Corporation issued 12,150,000 warrants in connection with the Absolute Transaction in July 2012. Each warrant is exercisable into one GoGold share at an exercise price of \$1.50 until January 24, 2015. As at December 31, 2012 12,150,000 warrants remained outstanding.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

The charge recorded in contributed surplus for the warrants was determined based on the fair value of the warrants at the date of issue using the Black-Scholes option pricing model with the following assumptions:

	Warrants issued July 27, 2012
Risk-free rate	1.29%
Expected volatility of the Corporation's share price	89%
Expected dividend yield	0%
Expected life of each option	2.5
Fair value per option	\$0.714

The expected volatility was determined based on the historical share price volatility as of the date the options were granted.

(g) Earnings per share

Basic earnings per share is calculated based on the weighted average number of shares outstanding during the period. Diluted earnings per share is based on the assumption that stock options and finder's options have been exercised on the later of the beginning of the period and the date granted. As of December 31, 2012, 3,585,000 options (2011 – 2,576,666) and 12,150,000 (2011 – Nil) warrants were excluded from the computation of diluted earnings per share because their effect would have been anti-dilutive.

6. RELATED PARTY TRANSACTIONS

Included in general and administrative expense during the period ended December 31, 2012 are insurance premiums amounting to \$19,999 (2011 - \$8,454) paid to a corporation in which a director of the Corporation has a significant interest.

The transactions were in the normal course of operations and were measured at the exchange amounts, which are the amounts agreed to by the related parties.

7. SEGMENTED INFORMATION

The Company's reportable segments are consistent with the Company's geographic regions in which the Company operates. In determining the Company's segment structure, the Company considered the basis on which management reviews the financial and operational performance and whether any of the Company's mining operations share similar economic, operational and regulatory characteristics.
