GOGOLD RESOURCES INC.
NOTES TO FINANCIAL STATEMENTS
(Unaudited - Prepared by Management)
FOR THE THREE AND NINE MONTH PERIODS ENDED JUNE 30, 2010

1. GOING CONCERN

The Corporation is currently in the development stage and investigating prospective acquisitions and is devoting all of its present efforts to securing and establishing a new business. As a result, its planned principal operations have not commenced. Accordingly, no revenue has been derived during the three and nine months ended June 30, 2010 and 2009.

The Corporation's financial statements as at June 30, 2010 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. As at June 30, 2010, the Corporation had working capital of \$724,807 and incurred net losses for the nine months ended June 30, 2010 and 2009 of \$210,227 and \$1,852, respectively. As a result, there is doubt regarding the appropriateness of the going concern assumption.

Management cannot provide assurance that the Corporation will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. Management intends to raise additional funding in the form of equity from the sale of common stock. However, if the Corporation is unable to raise additional capital in the future, management expects that the Corporation will need to pursue remedial measures. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Corporation be unable to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES

The unaudited interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in Canada using the same accounting policies as those described in note 2 to the Company's audited financial statements for the year ended September 30, 2009. Generally accepted accounting principles for interim financial statements do not conform in all respects to the disclosures required for annual financial statements and, accordingly, these unaudited interim financial statements should be read in conjunction with the Company's audited annual financial statements and accompanying notes. In the opinion of management, all adjustments necessary for the fair presentation of results for the periods presented have been reflected in these unaudited interim financial statements. These adjustments consist only of normal recurring adjustments.

In 2009, the CICA issued amendments to CICA handbook section 3862, Financial Instruments – Disclosures. The amendments include enhanced disclosures related to the fair value of financial instruments and the liquidity risk associated with financial instruments. Section 3862 now requires that all financial instruments measured at fair value be categorized into one of three hierarchy levels. The amendments are effective for annual financial statements for fiscal years ending after September 30, 2009. The amendments are consistent with recent amendments to financial instrument disclosure standards in IFRS. These amendments had minimal impact on the Company's disclosure as the Company's financial instruments are classified within level 1 of the fair value hierarchy such that quoted prices are available in active markets for identical assets or liabilities as of the reporting date.

3. MINERAL PROPERTIES AND DEFERRED EXPLORATION

On March 29, 2010, the Corporation announced it had entered into a formal asset purchase agreement for the arm's length acquisition of the Rambler property in Newfoundland, Canada (the "Transaction"). The Transaction is intended to constitute the Corporation's Qualifying Transaction pursuant to Policy 2.4 of the TSX Venture Exchange.

FOR THE THREE AND NINE MONTH PERIODS ENDED JUNE 30, 2010

The transaction is expected to take the form of an asset purchase whereby the Corporation will acquire the Rambler property in consideration for the issuance of 250,000 common shares of the Corporation and by paying \$130,000, of which \$25,000 has been paid as a non-refundable deposit. The vendor will retain a net smelter royalty ("NSR") of 2% and the Corporation may purchase one half of the NSR for \$1,000,000 at any time (see Note 7).

4. SHARE CAPITAL

(a) Authorized

An unlimited number of common shares, without nominal or par value.

(b) Issued

The following table summarizes the changes in issued common shares of the Corporation:

	<u>Number</u>	<u>Amount (\$)</u>
Balance September 30, 2008 and 2009	10,000,000	500,000
Shares issued for cash	5,000,000	500,000
Less: Share issue costs	-	(133,996)
Balance June 30, 2010	<u>15,000,000</u>	<u>866,004</u>

On January 20, 2010 the Corporation filed a prospectus related to the Initial Public Offering (the "Offering") of its common shares. On February 8, 2010, the Corporation completed its Offering of 5,000,000 common shares at a price of \$0.10 per share for gross proceeds of \$500,000. The Corporation incurred share issue costs of \$133,996 in connection with the Offering, including a commission fee paid to the Agent of \$40,000, professional and miscellaneous fees of \$72,596 and \$21,400 which represents the value of stock options granted to the Agent in connection with the Offering (see note 4(c)).

(c) Agent's stock options

Pursuant to the completion of the Offering, the Corporation's Agent was granted non-transferable options to purchase 400,000 common shares at a price of \$0.10 per common share. The options will expire on February 12, 2012. The fair value of the options was determined to be \$21,400 (\$0.054 per option) using the Black Scholes model and was included in share issue costs and contributed surplus (Note 5).

The following assumptions were used in the Black Scholes model for the Agent's options:

	<u>Options granted to Agent</u>
Risk-free rate	3.00%
Expected volatility of the Corporation's share price	100%
Expected dividend yield	0.00%
Expected life of each option	2.0 years

(d) Escrowed shares

Under the requirements of the TSX Venture Exchange ("TSXV"), 10,000,000 of the issued and outstanding shares are held in escrow. Of the escrowed shares, 10% will be released upon issuance of the TSXV bulletin announcing

the acceptance of the Corporation's Qualifying Transaction (the "initial release") and 15% thereafter on each of the 6, 12, 18, 24, 30 and 36 month anniversaries following the initial release.

(e) Stock options

The Corporation has a common share purchase option plan (the "Plan") for directors, officers, and other eligible persons. Options granted under the Plan have up to a ten-year term. Options are granted at a price no lower than the market price of the common shares less any discounts allowed by the TSXV at the time of the grant. On February 12, 2010, the Corporation reserved options to acquire 50,000 common shares of the Corporation at a price of \$0.10 per share for a registered charitable organization. The options will expire February 12, 2020 and vest immediately upon granting.

On February 12, 2010, the Corporation granted options to acquire 1,450,000 common shares of the Corporation at a price of \$0.10 per share to directors, officers and advisors. The options expire February 12, 2015 and vest immediately.

The compensation charge for the options issued was determined based on the fair value of the options at the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

	Options granted to directors, officers and advisors
Risk-free rate	3.00%
Expected volatility of the Corporation's share price	100%
Expected dividend yield	0.00%
Expected life of each option	5.0 years

The fair value of the options granted to the officers, directors and advisors was \$109,620 (\$0.076 per option) and is included in stock based compensation expense and contributed surplus (Note 5).

(f) Earnings per share

Basic earnings per share is calculated based on the weighted average number of shares outstanding during the three and nine month periods ended June 30, 2010 of 15,000,000 and 12,600,733 (2009 - 10,000,000). Diluted earnings per share is based on the assumption that options under the stock option plan have been exercised on the later of the beginning of the year and the date granted. As of June 30, 2010, 1,850,000 stock options (March 31, 2009 – Nil) were excluded from the computation of diluted earnings per share because their effect would have been anti-dilutive.

5. CONTRIBUTED SURPLUS

The following table summarizes the changes in Contributed Surplus:

	<u>Amount (\$)</u>
Balance September 30, 2008 and 2009	-
Estimated fair value of Agent's Option issued February 12, 2010	21,400
Estimated fair value of incentive options issued and reserved February 12, 2010	<u>109,620</u>
Balance June 30, 2010	<u>131,020</u>

6. RELATED PARTY TRANSACTIONS

Legal services were provided by an officer of the Corporation. The cost of these services during the three and nine months ended June 30, 2010 was \$55,385 and \$67,554 (2009 - \$6,678 and \$8,530).

Included in general and administrative and prepaid expense for the three and nine months ended June 30, 2010 are insurance premiums amounting to \$15,788 (2009 - \$Nil) paid to a company owned by a director of the Company.

The transactions were in the normal course of operations and were measured at the exchange amounts, which are the amounts agreed to by the related parties.

7. SUBSEQUENT EVENTS

On July 13, 2010, the Corporation announced that the TSX Venture Exchange approved the Corporation's previously announced Qualifying Transaction subject to a number of pre-closing and post closing conditions. The Corporation's Filing Statement is available through the internet on SEDAR which can be accessed at www.sedar.com.

On July 26, 2010, the Corporation closed the Qualifying Transaction which included the completion of a private placement of 1,666,665 flow through shares priced at \$0.30 each for gross proceeds of \$500,000. Four insiders of the Corporation subscribed for a total of \$100,000 of the private placement. As part of the financing, the Corporation paid a finders fee of 41,666 compensation warrants exercisable at \$0.30 for two years from the date of closing and paid a \$20,000 due diligence fee. In addition, the Corporation granted 150,000 incentive options to a director. The options are exercisable at a price of \$0.30 per share for a period of five years from the date of completion of the Qualifying Transaction and vest immediately.
